AIA/CES Registered Provider Program Summary Handout

Provider: Schluter Systems L.P. **Program #:** SCHL7A

Program: **Moisture Management in Tiled Showers**

Length: 60 minutes **HSW:** Yes

Credits: 1 L.U.

Description: Leaks and mold continue to pose serious problems for the construction industry. This seminar will compare traditional waterproofing systems with modern waterproofing technology to show how tiled showers have evolved. The fundamentals of both approaches, including proper design, execution, and function will be presented, with close attention paid to common errors, as well. The benefits of bonded waterproofing technology and how it has improved tiled showers will be stressed.

Learning

Objectives: At the end of this presentation, the participant will be able to:

1. Identify the benefits and challenges associated with tiled showers.
2. Understand the proper design and execution of tiled shower waterproofing systems.
3. Recognize the benefits of bonded waterproofing technology and how it has revolutionized tiled showers.

Approach: A PowerPoint presentation that features various photos of design and installation procedures will be used. There will be a question and answer period at the end of the program; however, questions are encouraged throughout as well.

A/V needed: Electrical power and a screen for the PowerPoint presentation.
(The CES facilitator will supply the laptop and projector)

Target

Audience: Architects, specifiers, owners, and other design professionals in the residential and industrial/commercial markets. Ideal audience size: 10 to 20 people.
