CANADA - Fall 2019

PROFILE OF INNOVATION

2019 New Products

Finishing and Edge-protection Profiles for Walls

Schluter®-DESIGNBASE-SL-E: Available in November!

New brushed stainless steel profile in 2 new heights.

Movement Joint and Cove-shaped Profiles

Schluter®-DILEX: Available now!

New profile colours to match your grout.

Shower System

Schluter®-KERDI-DRAIN: Available now!

New metallic finishes.

Schluter®-KERDI-DRAIN and Schluter®-SHELF: Available in November!

New TRENDLINE finishes.

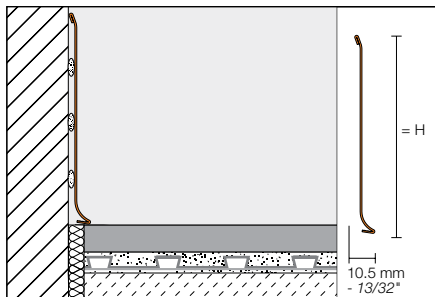

Schluter®-DESIGNBASE-SL-E

Rugged Build. Beautiful Design.

- Brushed stainless steel
- Available heights: 4-3/8" (11 cm) and 6-3/8" (16 cm)
- Exceeds code requirements for a commercial cove base
- Completely covers previous baseboard marks
- Available corners, end caps, connectors, and sealing lip

Schluter®-DESIGNBASE-SL-E

Schluter®-DESIGNBASE-SL-E profile is made of brushed stainless steel and provides a modern alternative to traditional baseboards. The profile is available in 4-3/8" or 6-3/8" (11 or 16 cm) heights to meet code requirements for a commercial cove base. DESIGNBASE features a sleek look, and has an optional sealing lip accessory to protect the floor/wall transition from moisture penetration and to reduce the transmission of impact sound. Matching corners, end caps, and connectors are available to create a clean, finished design.

Schluter®-DILEX

New Profile Colours to Match Your Grout

Looking for that perfect match between your grout and profile? Now there are four new colours available in our line of DILEX profiles, all designed to match the most popular grout colours.

Whether you're looking for a clean and minimalist design with grout and profiles that match your tile, or more of a contrasting look to create a bold statement, this line of new colours provides more options to help you achieve the look you want.

Schluter®-VINPRO

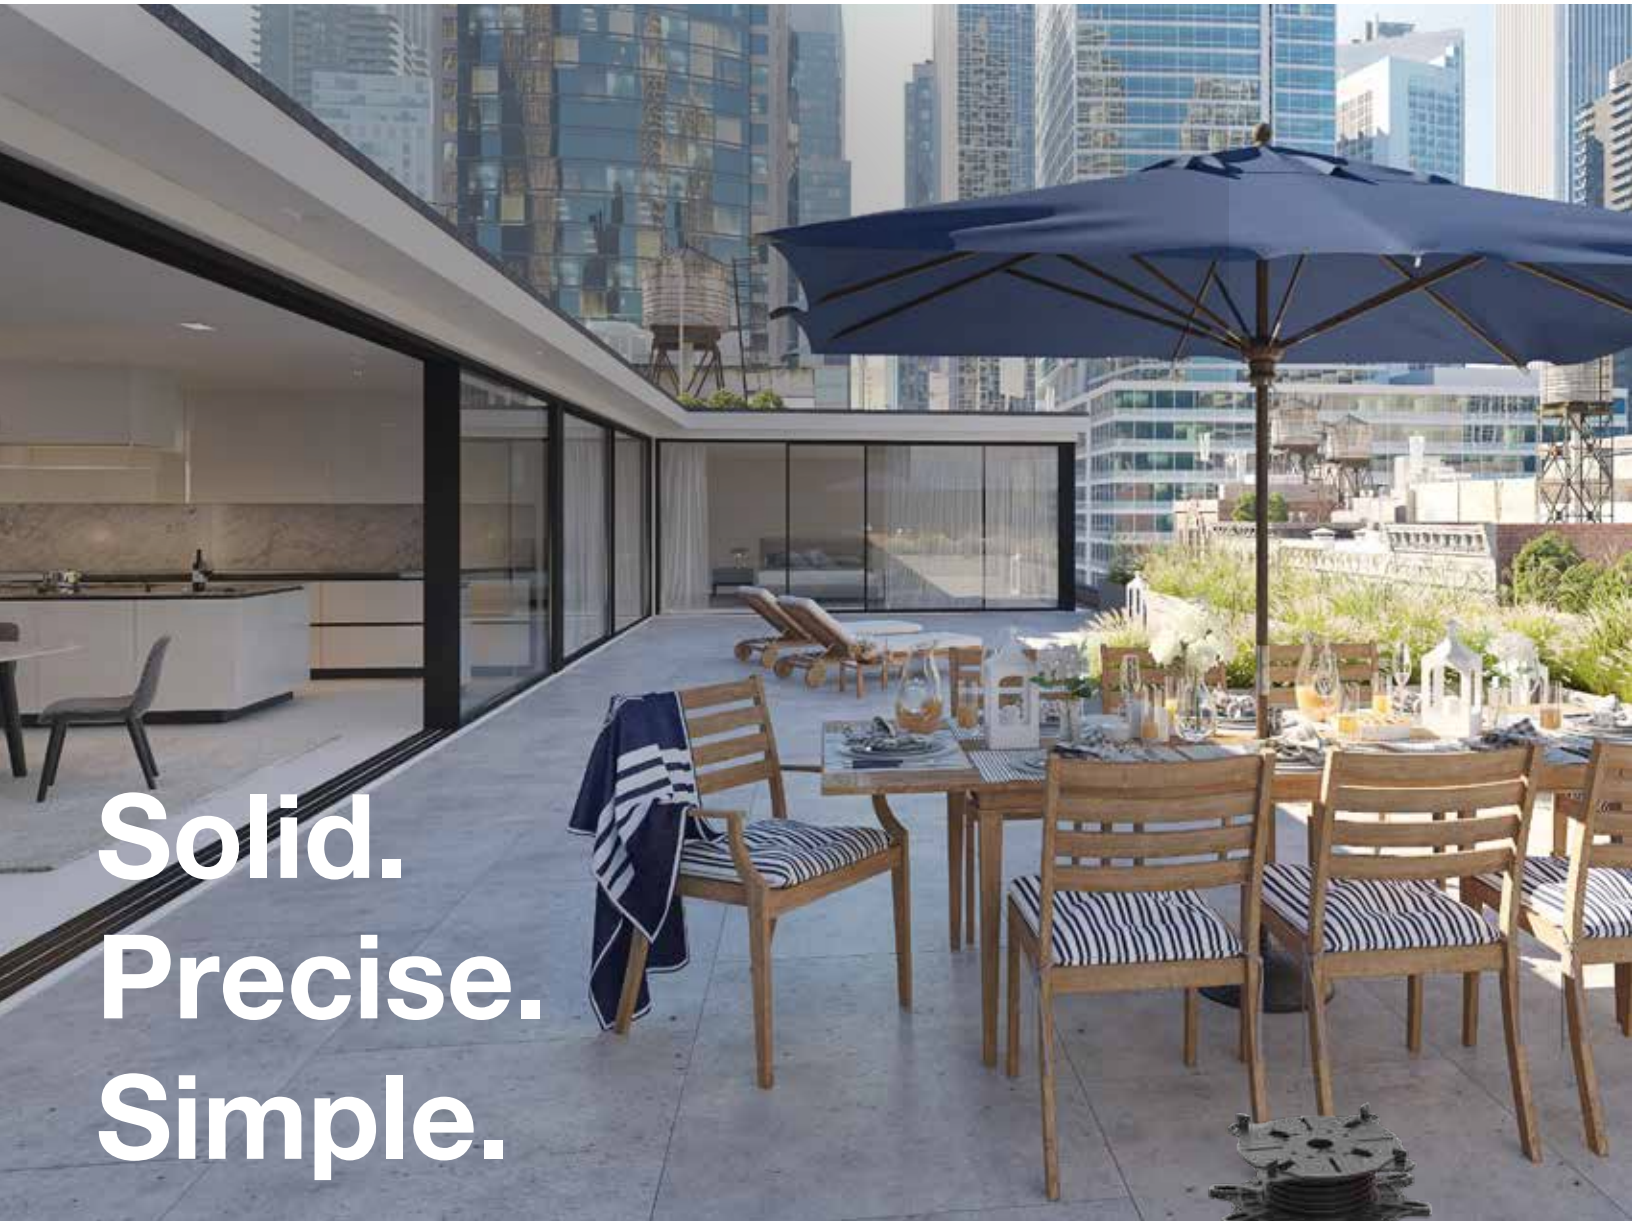

Modern Profiles Designed for Resilient Surface Coverings

Finding a durable and complementary transition for the many resilient flooring options is now made simple with the Schluter®-VINPRO profile series.

Benefits and Design

- Unobtrusive reveal for a sleek and minimal transition
- Durable and long-lasting anodized aluminum construction
- Neutral finish colors that adapt to quick-changing trends in resilient flooring (e.g.: LVT, LVP)
- Adaptable for retrofit and new installations

**Solid.
Precise.
Simple.**

Available Now!

Please refer to the TROBA-LEVEL Sell Sheet for pricing and additional information.

Schluter®-TROBA-LEVEL

Paver support system

With TROBA-LEVEL, you can quickly and easily install self-supporting tile pavers for exterior applications with lasting precision.

The small number of product components can be variably combined to compensate for sloped substrates, precisely level corners of adjacent paver tiles, and to allow for the flush installation of pavers with different thicknesses. The elevated assembly provides easy access to the substrate, as well as drainage and ventilation.

- High quality paver supports from assembly heights starting at 1/8" (3 mm)
- Consistent 1/8" (3 mm) joint width through integrated wall and joint spacer
- Compensation for sloped substrates up to 5% (up to 9/16" (15 mm) per foot)

Discontinued Items

Schluter®-TREP-G/-GK with Yellow (CG) and Nut Brown (NB) Treads

The TREP-G and TREP-GK with Yellow (CG) and Nut Brown (NB) treads have been discontinued. Remaining inventory will be available for purchase until December 1, 2019 or while quantities last. The other tread colours, Black (GS) and Transparent (T), remain available.

For stair-nosing profiles with Yellow or Nut Brown tread, TREP-S/-SE/-B may be used as an alternative.
